EMPLOYMENT HISTORY

2015-17

Professional Services Consultant

Tribal Group

Sydney, Australia

- Successfully migrated student loan data from the legacy system to our new infrastructure.
- Responsible for the reporting of student data to the Commonwealth government of Australia.
- Successfully reconciled discrepancies in TAFE's 2014/15 accountants and passed KPMG's internal audit.

2013-15

IT Support Consultant

Tribal Group

Sydney, Australia

- Provided product training to the level 1-2 help desks.
- Helped troubleshoot the integration of Tribal's messaging service to the customer's Tibco based middleware.
- Assisted the configuration and deployment of our software on the customer's infrastructure.
- Managed the escalation of level 3 support tickets with the UK based development teams.

SQL Server Data Tools

EMPLOYMENT HISTORY

2010-13

IT Developer

Tribal Group

Norwich, United Kingdom

- Worked on my first greenfield project. Bringing a Silverlight based social care application to market.
- Working with the legacy team, I got good exposure to the product lifecycle and the business of education.
- Learnt the latest development methodologies including: TDD, Scrum/Agile, SOLID and clean code.

2007-10

IT Apprenticeship

Jaeger

King's Lynn, United Kingdom

- Responsible for implementing the software behind our pick, pack and deploy of the new e-commerce site.
- As an apprentice, I got to experience multiple job roles including: Support Desk, Admin and Development.
- Developed a stock-taking system utilising mobile technology to overhaul the efficiency of the existing system.

EDUCATION

2006-07

A Levels

Dereham 6th Form College

Dereham, United Kingdom

Although I never finished my final year at Sixth Form, I thoroughly enjoyed the experience. If I had not been offered the placement at Jaeger, I would have gone on to university to study Computer Science.
